

National Resource Centre for Education & Department of Higher and Professional Education, NIEPA

Invite you to Join Faculty Enrichment Webinar For Life-Science Teachers in Higher Education

About Webinar

The National Resource Centre for Education, established at the National Institute of Educational Planning and Administration (NIEPA), is one of the main components of the Pandit Madan Mohan Malaviya National Mission on Teachers and Teaching (PMMMNTT), envisaged to address comprehensively all issues related to teachers, teaching, teacher preparation, and professional development. NRCE in its first phase has collated resources for 10 subjects i.e. Economics, Life Science, Chemistry, Physics, Mathematics, Political science, Education, Management, Sociology, and History. Also, NRCE collated resources on Teaching-learning and Research Methodology for these subjects. These resources are now being hosted on the NRCE website. Hence, on completion of the first phase, the next step indeed is to introduce the resources to the prospective users of the resources, the young and aspiring faculty in our Higher education system to get engaged with the 10 subject's teachers making them aware of the resources, supporting them in using the resources and more so to get their feedback on the same.
