PROSPECTUS

M. Phil. and Ph. D. Programmes, 2008 - 2009

Vision

To become a Centre of Excellence in educational planning and administration and prepare competent professionals to meet the needs of educational development in the national and global contexts

Mission

To undertake advanced level teaching and research in educational planning and administration and act as a pioneering, innovative and pacesetter institution through developing specialized curricula and integrated programmes to meet the local, regional, national and international aspirations

Genesis of NUEPA

The National University of Educational Planning and Administration (NUEPA) has its origin dating back to 1962 when the UNESCO established the Asian Regional Centre for Educational Planners, Administrators and Supervisors which later became the Asian Institute of Educational Planning and Administration (AIEPA) in 1965. The AIEPA was later on merged with the National Staff College for Educational Planners and Administrators as its Asian Programs Division in 1973. Subsequently, with increasing role and functions of the National Staff College, particularly in capacity building, research and professional support services to the state governments, it was again renamed as the National Institute of Educational Planning and Administration (NIEPA) in 1979. In recognition of the pioneering work done by the organization in the field of educational planning and administration, the Ministry of Human Resource Development, Government of India has empowered NUEPA to award degrees by way of conferring on it the status of University in August, 2006 under Section 3 of the UGC Act, 1956.

Message from the Vice-Chancellor

From a UNESCO Regional Centre founded in 1962, we have grown into a National University of Educational Planning and Administration (NUEPA) with a mission to advance knowledge on the strength of research, innovation, teaching and extension. The National University, which aims at producing talented professionals in education needed by the modern world, is a story of institutional transformation in terms of its character, roles and functions. The National University is proud of its ties for over 40 years with various national and international organizations including UNESCO, UNICEF, UNDP, International Institute for Educational Planning (IIEP), World Bank, European Union, etc. While continuing with our ongoing commitment of professionally supporting Central and State governments on matters of education and capacity building, we now offer M. Phil. - Ph. D. and Ph. D. programmes in educational planning and management from a broad interdisciplinary social science perspective covering all levels and types of education. The first batch of scholars who joined the University in July 2007 have found the programme both challenging and rewarding.

We are privileged to have a team of committed inter-disciplinary faculty to provide an outstanding learning environment to nurture academic excellence. Ensuring quality is the goal of the National University in all aspects of its academic programmes and activities. We make sincere efforts to provide professionally exciting ambience to enable our students to bring out the best in them. We see a bright future for all those who may join us in our endeavour to enrich through research the field of planning and management of education in the country.

We look forward to scholars committed to contribute to the culture of excellence at the National University. It is, indeed, a pleasure for us to welcome you to be a part of our M. Phil. - Ph. D. and Ph. D. programmes.
